

SUBMISSION TO ENQUIRY INTO COVID-19

RESPONSE

1. It is disturbing and unreasonable that after multiple requests over 2 years, when government finally decided to accept submissions towards an enquiry into the Covid-19 response, the public has been given only one week to respond, with very little publicity of the opportunity. Given the secrecy and censorship endured since 2020, this comes as no surprise and is an indication of how little worth government places in the opinions of the people.
2. How was this pandemic declared? It would appear it was declared after video footage and cases were reported (since debunked) out of China, yet no such pandemic ever arrived on our shores. In fact, according to World Statistics, the flu disappeared in 2020, apparently replaced by 'Covid-19'. In 2020 flu seasons, an average of 1700 people died, mostly seniors and/or with pre-existing conditions. 3000 deaths was considered a bad flu season, yet we had 550 deaths in 2020. Please investigate the many deaths claimed to be from Covid that were in fact from other causes. How many people were paid to have their loved ones declared a Covid death instead of the true cause? Please do interview embalmers and funeral directors who can testify that deaths increased since the rollout. They can testify to the changed nature of the blood and the difficulties they now have preparing corpses for burial.
3. Please do not patronize us with false claims of how effective social distancing, sanitizing and masks were. It was a show to scare the people and it worked. There was no pandemic. The deaths only started in earnest after the alleged cure was rolled out.
4. I'll never forget how we were separated from loved ones and denied time with dying friends and families due to ridiculous dictatorial measures. I will not forget how we were treated as criminals for making private choices for my individual health requirements. I will not forget the fear mongering for a problem that did not exist, nor the division that was created among the people. What happened to all the businesses that closed down and the people who lost their jobs because they refused to be forced to do something against their will?
5. Reports from UK Parliament confirm that over 90% of all Covid deaths have been triple vaccinated. Why does the government still push a poison onto its people when insurance actuary figures confirm there are 15% excess deaths since the campaign rollout, in the previously healthiest age range of the working population 18-55 years.
6. This should not be an inquiry into responding to the next planned pandemic which will be announced in plenty of time for investors to make maximum profits. This should be a Royal Commission into the deaths, disabilities and destruction of the economy and morale in the wake of the disasters of the last 4 years with no regard to the men and women of this country.
7. There needs to be full disclosure of all conflicts of interest of any man or woman in a position of influence and/or authority, exposing any financial or other gain from interests in any equipment such as tests, PPE, injections or associated substance or pharmaceutical shares which they may profit from such as Annastacia Palaszczuk's father being a board member of a DNA lab with links to CCP, or others with links to pharmaceutical companies or other corporations in a position to profit.
8. Please provide full disclosure of the comparison of costs between pre-covid and covid related medical items on the Medicare list. For example, how much does a doctor/nurse/chemist/clinic/etc get paid per Covid-19 injection as compared to the previous flu shots. I have included a blank form to be completed. How much did a doctor/nurse/expert get paid per death/illness/case/etc previous to Covid as

compared to how much they were paid to diagnose and declare sickness, illness, deaths or any other condition as a Covid death/disease/disability.

9. This enquiry will no doubt be another whitewash because the government are under orders from unelected, foreign influencers to continue this campaign to depopulate.
10. Malfeasance – “The wrongful or unjust doing of some act which the doer has no right to perform, or which he has stipulated by contract not to do.”
11. Misfeasance – “A misdeed or trespass. The doing what a party ought to do improperly. 1 Tidd, Pr 4. The improper performance of some act which a man may lawfully do. 3 Steph. Comm.460. Not doing a lawful act in a proper manner, omitting to do it as it should be done.” Black’s Law Dictionary 1st Edition 1891.
When does the enquiry begin to investigate the criminal behaviour, misfeasance and malfeasance of local councillors, businesses, banks, hospitals, health clinics, doctors and anyone involved in the distribution of a proven bio-weapon without proper trials. According to the hearing submission to the CDC in 2021, trials on large mammals and simians were approved **SIMULTANEOUSLY WITH APPROVAL TO BEGIN TRIALS ON MEN AND WOMEN. NO TRIALS WERE CONDUCTED ON PREGNANT WOMEN OR CHILDREN BEFORE THEIR DISPERSAL ONLY RODENTS WHICH** [REDACTED]!! When do the trials begin on those who approved the slaughter of our population, while the protected members of Parliament were **EXEMPT** from participating in, according to Greg Hunt, ‘The world’s largest clinical trial’ ? Shame on any member of parliament who had an opportunity to speak out against this untested, experimental treatment and failed to do so. You are a [REDACTED]
12. When will the people be held to account who willingly and forcefully contravened and criminally disregarded the standards set by the Nuremberg Trials and the Australian Vaccination Handbook that stipulate no one can be coerced, forced, manipulated, incentivized, bullied or blackmailed against their will, without their express consent to do so and only with full disclosure of all ingredients and possible side effects and risks?
13. When will Australia exit the WHO? Why is this country and our leaders taking directions from foreign, unelected corporations without the consent of the men and women of this country?
14. [REDACTED]
15. Please investigate why Prime Minister Scott Morrison committed to buy the equivalent of 18 doses for every Australian of an untested, untrials, Covid-19 experimental bioweapon without any independent testing? Since when do we need more than one dose of a flu shot, let alone 3/5/8/10/15/18? What is the purpose?
16. We do not consent to the constant censorship of truth that has been labelled as conspiracy theory, only to be proven correct after the fact. Please research data from insurance actuaries who will confirm there are 15% excess deaths in the formerly healthiest section of the working population, 18-55 year olds, and it has never been more dangerous to be an athlete. Since when do we need defibrillators in schools!
17. **I AM DISGUSTED BY THE LEADERS OF THIS COUNTRY AND THEIR NETWORK OF THUGS IN BLUE AND MEDIA HARLOTS WHO HAVE PERPETRATED CRIMES AGAINST THE MEN AND WOMEN OF THIS COUNTRY. THEIR DAY IN COURT CANNOT ARRIVE SOON ENOUGH.**
