

I am an Australian seeing the negative impacts of both the federal and state governments management of the covid pandemic and Covid Vaccine mandate have in my communities.

This includes:

- Mental health issues caused by the lock down.
- Suicide caused by the lock down.
- Elderly and regular Australian being treated badly / unjustly by police acting like thugs and using excessive force.
- [REDACTED] behaviour by state leaders such as Daniel Andrew, Mark McGowan, Anastasia Palaszczuk and Michael Gunner.
- Financial issues caused by people who were not able to work because of the lock down and / or vaccine mandate.
- Family breakdown, students are not allowed to go to school, workers terminated because of the vaccine mandate.
- Immediate and long term health issues resulting from the jab ([REDACTED] GBS, [REDACTED] myocarditis to name a few).
- Death caused by the Covid vaccine.

Just a small sampling of studies below are proofs that the mask, the lock down and the vaccine mandates are unjustified, even resulting in detrimental result to human's well-being.

I call on a proper investigation into:

- Corrupt vaccine procurement and secret contracts.
- Mask mandates.
- Lock downs.
- Vaccine mandates.
- Official misinformation and lies in the media regarding the ability of vaccines to block transmission.
- Unjust and cruel behaviour by the police towards people who speak up against the lock downs and mandates.
- Vaccine injuries.
- Media censorship, silencing of doctors who speak differently or offered different solutions and ideas.
- The role of AHPRA and ATAGI in censorship and oppression of doctors.
- The role of AHPRA and ATAGI in suppressing effective medication such as ivermectin and hydroxychloroquine so the government can push the vaccine mandate.
- The poor treatment of victims.

There needs to be a proper covid inquiry similar to the royal commission to learn from the mistakes of the past so that this is not repeated. Through this dark and sad period, many of us Australian have been stripped off our human rights in not being consulted or given the freedom and coerced to bow to the premiers on whatever they felt was necessary to “keep us safe” which turned out to be untrue as elaborated above.

Hence, I truly hope that there will be genuine efforts to do better given the coronavirus will be here to stay (just as flu continues to stay) but I believe that better measures to boost our natural immunity would be more helpful rather than draconian and authoritarian measures as demonstrated in 2020, 2021 and 2022. It would be great if Australia will just try to be humble and have the courage to learn what Sweden did compared to all the other countries. They have turned out to have less casualties from this pandemic though initially the laughing stock for refusing to do all the ridiculous things other countries did which turned out to be far more detrimental.
