

Writing this submission as parents; everyday ordinary people who have only ever wanted the best for family, community and country. This is our take on the last four years -

15 Days to 'Flatten the Curve' was the most ignorant, naive and ill-informed Government and so-called Chief Health Officer's plan of action; this plan itself of course - was to become the beginning of the 'Deception' and the Project of Fear, this far too simple and grossly un-scientific catch phrase which in four years has practically brought this country to it's knees, the human toll the economic toll and the toll on our moral and cultural identity; obvious to those who care to look. Government and it's litany of bureaucrat's and Premier's had no proof, evidence, science or authority to hand down such ludicrous dictats (dogmatic decree's) and the spawn that followed in the form of 'vaccine' and mask mandates, quarantine centres, border closures, job losses, restricted gatherings, school closures, 'vaccine' passports, ticks and crosses of red and green, funeral's missed, babies dying at the tyrant's whim, old people alone, all and all human right's abuses varied and many which have now brought us to the raft of terrible human and economic outcomes many, many good people are experiencing and suffering as a consequence.

We will not focus on the personal grief and destruction this has wrought on our family and community (lockdowns, mandates, health issues, death and sickness attributed to 'vaccine adverse reactions', disrupted education with irretrievable outcomes, high street full of empty shops once inhabited by small entrepreneurial mum and dad businesses; and of course that which goes without saying the ubiquitous mental health explosion!) But believe us it is real and is 'real' people's lives that Government and Bureaucrat's holus-bolus tread on and over without even a question to the 'science' which now is being exposed for the garbage it was and is! No debate, no practice of age old infection control methods, dreadful masking mandates that had years of medical and scientific proof that masks were useless to control infection and were and are harmful; not just the banning of tried and true medicines with over 50 years of proven efficacy but the actual making of them 'illegal' to prescribe or have as off label medication! As an aside to sensible - what about the circus that was wear a mask when entering a restaurant, take it off to eat and put it on again to leave! A pile of the proverbial would describe that 'science' as taking the 'mick' but with a dreadful cost to the human psyche! Who makes up such bizarre rulings, mad tyrannical Roman Emperor's come to mind. Those sensible things alone if Government and it's associated mouthpieces actually had concern for the welfare of 'the people' would have been a priority to the duty of care of the citizens and especially grievous was the travesty that was the carnage wreaked on our precious elderly.

We find it repugnant that Government gave 'permission' for sanctimonious virtue signalling finger waggings to have a platform to judge other people's lives and decisions; that absolutely egregious threats against certain people were tolerated and encouraged and some were even shot at by Police for exercising their constitutional rights (in this country!!). That the Government's own handbook on Immunisation states CLEARLY "Informed Consent" as the 'absolute'

and the medication provided “without coercion, manipulation or undue pressure” that people have a right to their own bodily autonomy as set out in the Nuremberg Declaration. However under Covid Government propaganda endlessly televised threats and a number’s game this was so easily thrown under the bus, some people losing everything because they practiced their right to Bodily Autonomy! What a disgrace this all was!

Now Government ignore Excess Death figures which appear in their own Statistics and Data and nonchalantly dismiss the excess and unexplained death’s of their own as unimportant to investigate. The people will work it out eventually and who knows that outcome?

May God bless you in your Inquiry because the blood, heartache, loss and breakdown in the lives of Australian’s over the past 4 years has to be acknowledged; those in charge then and now should face the people and be reminded they ‘serve’ not the other way around. They must be judged to whether this was criminal behaviour; were these Crimes against Humanity? Was their fear mongering, their over reach, their ultimate power grab and their stunning lack of curiosity to ask questions of BIG Pharmaceutical and the W.H.O just share stupidity or actual malice?

You are tasked with this enormous responsibility actually an historical responsibility for future generations that you exercise an ‘archer’s eye’ in this Inquiry. We pray that every night you lay your head on the pillow you sleep the sleep of babe’s; because you have in this day of inquiry with this chalice you have been given – sought justice and truth, and that you stood unflinching facing the task without fear or personal stake in the outcome. That you are there solely for the people in the pursuit of truth, transparency, a fearless righteous heart and a love of humanity.

Thank you
Paul and Nina Ferrari
