Australian Government

Department of the Prime Minister and Cabinet

Submission: COVID-19 Response Inquiry

Dear Sir/Madam

I wish to make a submission regarding the Australian Government's COVID-19 response.

Health Response:

Due of the implementation of mandatory COVID-19 vaccinations, my family and I suffered many degradations and hardships such as:

- Not being able to enter a shop to buy [REDACTED] school uniform – I was forced to wait outside while [REDACTED] tried on his uniforms for fit. This was humiliating as I was perfectly healthy.
- Loss of my job and no income for two years.
- [REDACTED] was bullied by his company for two years regarding his vaccination status. As a result [REDACTED]
- [REDACTED] were forced to submit to vaccination (against their will) to keep their jobs
- [REDACTED] was admitted to hospital closely following her vaccinations with extensive blood-clotting in her lungs, stomach and leg. [REDACTED] and I were not allowed inside the hospital to support or advocate for her due to our vaccination status. This has been the most traumatic experience of our lives.
- Continual vilification and hate-speech against us (the unvaccinated) on mainstream news including by members of Parliament (e.g. Gladys Berejiklian)

As COVID-19 vaccines do not prevent infection, transmission or death from COVID-19, the implementation of mandatory vaccination is a horrific crime against humans' basic rights. The vaccines are NOT safe or effective for everybody.

In my opinion, and that of my family, the Australian Government's response to COVID-19 was completely inappropriate and CRUEL.

Thank you for your time and consideration,

Debbie Arnold
