

Dear Sir,

1. There MUST be a ROYAL COMMISSION into ALL aspects of the pandemic in Australia, covering Federal & State;
2. The Australian government MUST NOT sign the WHO Treaty to give away Australia's SOVEREIGNTY GIVEN THE WHO IS unelected & controlled by China;
3. What are the exact CONTRACTS the Gov signed with vaccine manufactures & did they waive liability for manufactures; given the huge number of vaccine injuries individuals MUST be able to sue Gov & manufacturers;
4. A Royal Commission MUST look into ILLEGAL vaccine mandates; they crippled industries & small businesses AND the Government workers were exempt; how unfair can it be?
5. The Governments, (Federal & State) & Health officials told LIES every day, OFFICIAL MISINFORMATION about vaccines, that it stops infection & transmission; OUTRAGEOUS!
6. The Government kept changing the goal posts to suit new misinformation from local & overseas Sources;
7. It was disgusting that Doctors & experts were SILENCED by the Government, AHPRA & ATAGI; I spoke with many Doctors privately & they said they would be disbarred if they spoke publicly; they know better than the public servants; e.g Murphy could not say what a "woman" was & he is chief Medical Officer;
8. People like the Premiers of Vic, Qld & WA acted appallingly & MUST be held accountable.
