To Whom It May Concern,

I write as a concerned Australian in regards to the overblown pandemic responses by Australian governments during the COVID years.

In particular:

- **Our freedoms were trampled upon** –
 - Our choice and bodily integrity was taken from us, with the requiring of masks and vaccines – many went along with this in order to keep their jobs, or visit loved ones, or just to visit entertainment venues, etc.
 - Our personal and religious freedoms were removed with restrictions and bans on gatherings for families, churches and community groups
 - Our freedoms of movement, assembly, and autonomy in our everyday lives were removed by the totalitarian responses of lockdowns, border closures and curfews
 - Our ability to hold weddings and funerals and be with loved ones in their time of need was disallowed
- **Our human rights were violated** – we saw unvaccinated people refused medical care at doctor's clinics, pathology clinics and hospitals
- **Our medical privacy was breached** as people were segregated on the basis of their private medical choices
- **Our society was divided** – families, friendships, schools, communities were segregated based on people's private medical choices
- **Our right to work was lost** – people lost jobs, careers, homes, reputations and studies due to unfair and unreasonable vaccine mandates
- **Our economy was deeply harmed** –
 - which in reality, is people's livelihoods
 - the needless excessive debt of federal and state government due to severe and prolonged lockdowns will continue to hurt Australians for many generations; the young have been forced to sacrifice deeply for the sake of the old
- **Our media was hijacked and used to convey only one message of fear, discrimination and "you must comply"** –
 - governments and media employed bullying tactics to those not "complying" with the forced measures

- the resultant fear and suspicion has led to far-reaching breakdown of relationships amongst all levels of society
- strict media censorship and propaganda was employed to deliberately stifle any debate because it might “undermine the Government’s vaccine rollout” – this is a disgrace and a worrying reality for any democracy
- **Our country continues to lose Australians at an unprecedented level of excess deaths** –
 - which may have to do with the forced rollout of vaccines which were later proved not tested, and neither safe nor effective
 - the ABS death data was delayed

As a country with such a free, democratic history, and having had innumerable, loyal citizens who fought for such freedoms – we deserve to have a proper, impartial Inquiry into all of the governments’ responses to COVID. We must ensure such over-reaches never occur again.

Thank you for your consideration,
